STQA-4: Defect reports

Field	DEF-001 (found in MP-2 test run)
Bug name	Login accepts a blank or whitespace-only username when a password is typed
Bug ID	DEF-001
Area path	Login page > POST /
Build number	1.0
Severity / Priority	High / High (a user can get in without a valid account)
Assigned to	Developer
Reported by	Tester
Status	New, then Fixed and Verified in build 1.1
Environment	Python 3 local web app, 127.0.0.1:8099
Steps to reproduce	1) Start build 1.0 and open the login page. 2) Leave Username blank (or type spaces). 3) Type any password, for example 'abc'. 4) Click Login.
Expected result	HTTP 400: 'Username and password are required'
Actual result	HTTP 200: 'Welcome, guest'
Failing tests	test_TC04_blank_user_with_password, test_TC07_whitespace_user
Retest	Build 1.1: all 7 regression tests pass. Defect closed.

Sample from the manual (user creation crash)

Field	Value
Bug name	Application crashes on clicking SAVE while creating a new user
Area path	USERS menu > New User
Build number	Version 5.0.1
Severity / Priority	High / High
Environment	Windows 2003 / SQL Server 2005
Steps to reproduce	1) Log in. 2) Go to Users > New User. 3) Fill all user fields. 4) Click Save. 5) Error page 'ORA1090 Exception: Insert values Error' appears. 6) Logs and screenshot attached.
Expected result	Message 'New User has been created successfully'
